

An update on PTSD: Epigenetics, Military Sexual Assault and Moral Injury

Overview

Growing research and observations on operational stress and trauma continue to push the boundaries of understanding and treating PTSD. This conference will focus on a number of current topics including: the impact of sexual trauma in the military (and beyond), the role of epigenetic factors in trauma and PTSD, and afternoon workshops that will address the concept and implications of moral injury, facilitated by The Royal's OSI Clinical team.

Presenters

- *Dr. Amy Street*, Boston University, and the National Center for PTSD at Veterans Affairs Boston Healthcare System, U.S.
- *Dr. Zach Kaminsky*, DIFD Mach-Gaensslen Chair of Suicide Prevention Research, IMHR, The Royal
- *Dr. Hilary Maxwell*, Psychologist, OSI Clinic, The Royal
- *Colin Vincent*, Social Worker, OSI Clinic, The Royal
- *Stephanie Houle-Johnson*, Ph.D Candidate (C.Psych), University of Ottawa
